Early College Experience for High School Students Interested in Engineering

BUILDING BRIDGES
Fall 2017

About the Building Bridges Program
• Bi-annual event to provide high school students with the opportunity to explore Northeastern University’s College of Engineering
• Full day of interactive engineering activities to help students understand the various engineering disciplines, led by COE faculty and students from all of the engineering departments
• Introduction to research programs and initiatives at Northeastern
• Overview of potential career paths and higher education options
• Networking opportunities to meet and talk with current University students and faculty members
• Interactive lunch session with industrial engineering challenges

Additional Information*
• Breakfast and lunch included with registration
• Group visits and school trips welcome - contact for special arrangements
• Opportunities for parents and families to explore the campus and City of Boston during the day while students are participating in the program
• Financial support available - inquire within for details

Program Details*

When: December 1, 2017
Check-In 8:30 - 9:00 am

Where: Northeastern University

Map & Directions

Who: High School Students Interested in Engineering

How: $15 Registration Fee*

Register at: https://stem.neu.edu/programs/apy/building-bridges/

“Building Bridges program opened my eyes to the wide variety of engineering concentrations and areas of research. I thoroughly enjoyed the hands-on activities and the opportunity to explore the engineering labs around campus!”
